EDUCATION

Manipal University Jaipur

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.98{till 3rd semester}

Aug 2024 – Present

PROJECTS

Open Source Contributor – GirlScript Summer of Code (GSSoC)

Aug 2025 – Nov 2025

Project: WebSphere (Open Source Web Development Project)

- Contributed to an open-source project under the GirlScript Summer of Code (GSSoC) program, collaborating with a global community of developers.
- Worked on improving frontend components using **HTML**, **CSS**, and **JavaScript**, ensuring responsive and accessible web design.
- Assisted in backend integration and code optimization using **Python**, **C**, and **C++** for performance enhancements.
- Managed version control and collaborative development through **Git** and **GitHub**, including pull requests, issue tracking, and code reviews.
- Gained hands-on experience in open-source contribution, teamwork, and best coding practices in a large-scale project environment.

Blockchain-Based E-Voting System (Personal Project)

Sept 2025 – Present

- Developing a **secure and transparent electronic voting system** leveraging **blockchain technology** to ensure data integrity, immutability, and voter anonymity.
- Implementing **smart contracts** to manage voting logic and record verification, minimizing risks of fraud and unauthorized access.
- Integrating **cloud computing** for scalable data storage and real-time vote processing, ensuring system reliability and availability.
- Designing the **frontend interface** using **HTML**, **CSS**, and **JavaScript** for an intuitive user experience.
- Utilizing **Python** and **Java** for backend development, cryptographic operations, and blockchain interactions.
- Employing **Git** and **GitHub** for version control, collaboration, and continuous project tracking.
- Aiming to create a **decentralized, efficient, and tamper-proof** voting platform suitable for institutional and public elections.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, SQL, HTML, CSS, JavaScript

Frameworks & Tools: Git, GitHub, MATLAB, AUTOCAD, Linux, React, Node.js

Subjects: Data Structures and Algorithms, Operating Systems, Database Management System, Computer Networks, Blockchain{elementary}, Computer Architecture, Machine Learning, Artificial Intelligence

ACHIEVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

Organizing Committee Member – ICKHI 2025 (International Conference on Knowledge Management in Higher Education Institutions)

Manipal University Jaipur & King Mongkut's University of Technology North Bangkok

- Contributed to organizing the 4th Edition of ICKHI 2025, gaining hands-on experience in research paper evaluation, citation indexing, and academic conference management.
- Collaborated with esteemed professors and researchers, enhancing understanding of knowledge dissemination and academic excellence.

Contributor – GirlScript Summer of Code 2025 (GSSoC '25)

- Selected as an open-source contributor to collaborate on community-driven projects, improve technical skills, and engage with global mentors and developers.

Participant – Bolt IoT Project IDX Workshop

- Completed a hands-on workshop focused on the Internet of Things (IoT), developing practical knowledge in IoT systems, device integration, and project prototyping.

Dean's List Award (Twice)

- Recognized for academic excellence with GPA scores of **9.33** (Semester I) and **9.5** (Semester II).
- Among the top-performing students in the department for consecutive semesters.
